DESCRIPTION

This ski in ski out chalet was renovated in 2014 by architect Remi Giffon who surprised us by his strong sharp contrast between the traditional exterior and white interior atmosphere with refined decoration that makes this project a unique chalet of its kind. The outside of the chalet has been preserved in its true mountain style.

Rémi Giffon has performed work many times in order to give new life to this ski in ski out chalet like creating a unique staircase that serves all four levels of the chalet or the addition of two Jacobin style dormer windows to give a true parental space on the top floor of the chalet.

The interior was completely redesigned, the quality of this project lies in the high level of details and finishes. The interior of the chalet Amnesia is a pristine jewel in white timber in a warm and comfortable atmosphere. The furniture is in a chic and contemporary style.

Many elements and decorations come from the interior design, such as the sublime rectangular glass dining table, large beige leather corner sofa or many lacquered furniture items.

Enjoy spacious and numerous upscale amenities offered by the chalet Amnesia. This ski-in / ski-out chalet on the piste hosts ten people in five en suite bedrooms. The level of performance and service of the chalet Amnesia is in fact a haven five stars in Courchevel 1650. Its magnificent master bedroom on the top floor of the chalet, its wellness area with Jacuzzi and terrace facing South West amongst the fir trees will delight its occupants.

With family or friends, you will love this ski in ski out chalet in Courchevel Moriond situated on the slopes. Its architecture, decor and upscale amenities associated with quality of service offered by the reputed Cimalpes will guarantee you unforgettable holidays in the Alps.
