DESCRIPTION

Contemporary Architecture at Atelier House Barbados

If you are searching for a unique and stylish holiday retreat, Atelier House Barbados is an exceptional choice. This contemporary luxury villa is a masterpiece of modern design and island elegance. The property is characterized by a dramatic double-height living space that immediately captures your attention. Because the ceilings are so high, the room feels incredibly bright and airy. Furthermore, this open layout maximizes the stunning views which extend across the outdoor terraces. From the living room, you can look out over a mahogany tree-filled gully toward the sparkling Caribbean Sea.

Expansive Terraces and Private Pool

The outdoor living areas at Atelier House Barbados are designed for total relaxation. For instance, the ground level features wide terraces and a large 32-foot by 27-foot swimming pool. This pool serves as the perfect spot to cool off while enjoying the tropical surroundings. Additionally, the property boasts a large roof terrace that offers panoramic views of the West Coast. This elevated space is ideal for sunset cocktails or stargazing at night.

Inside the villa, a mezzanine-level study provides a quiet place to work or read. This area also benefits from the expansive glass walls that frame the ocean vistas. Because the home is surrounded by a half-acre of private gardens, the atmosphere remains secluded and peaceful. These grounds feature indigenous palms, lilies, and vibrant bougainvillea that add a splash of color to the landscape.

Luxurious Bedrooms and Master Suite

Atelier House Barbados features four spacious and beautifully appointed bedrooms. The upstairs master suite is a private sanctuary that includes a glazed balcony with sea views. Furthermore, the master suite has its own covered outdoor terrace for relaxing in the shade. The en suite bathroom is quite grand and features separate bath and shower facilities for your comfort.

The three additional guest bedrooms are all located on the ground floor for easy access. One of these guest suites includes an enclosed outdoor shower, providing a truly tropical experience. Meanwhile, the other two guest bedrooms share a well-appointed bathroom. This layout makes the villa a great choice for families traveling with children or groups of friends.

Prime Location on the West Coast

The location of Atelier House Barbados is another significant advantage for guests. The villa is situated on a ridge that overlooks the famous Platinum Coast. Consequently, you are only a short drive away from the best beaches and fine-dining restaurants in the area. You can easily
