DESCRIPTION

Casa Mam was designed for you to coexist with the environment. Its modern tropical architecture fuses the tastefully decorated indoor spaces with the lush outdoors. The elegant lounge and dining areas seamlessly integrate with the oceanfront deck and climatized pool on one side, and with a jungle deck on the other.

Beyond the main *palapa*, the natural dunes, with their palm trees and snug hammocks, are the prelude to a breathtaking private stretch of white sand beach. Climb on to the top level and you'll find mesmerizing 360-degree views of the 4.5-acre property, with the lagoon on one side and the Caribbean Sea on the other. The rooftop deck, an ideal spot for morning yoga and watching spectacular sunsets, also boasts an infinity pool where you can spend hours relaxing and contemplating the ocean.

Up to 12 guests can sleep cozily in the property's four spacious bedrooms. The master bedroom is equipped with its own *sento* hot bath and has direct access to the main pool and deck, while the main and deluxe rooms, all exquisitely furnished, enjoy spectacular views from their terraces.

Due to its location in a protected natural area and World Heritage Site, Casa Mam uses the latest advancements in technology to minimize energy and water consumption. The modern appliances are wind and solar-powered, while rainwater is harvested to meet most of the guest's needs. And although A/C is available, the residence is designed to maximize airflow and stay fresh and comfortable all year round.

This luxury beachfront villa in Tulum -world-famous restaurants and nightlife are just minutes away- is the ultimate retreat in communion with nature. Once you have experienced this paradise, you're sure to return home with a deep love for the natural world.
