DESCRIPTION

Having 7 en-suite bedrooms, you will enjoy the panoramas on La Saulire and on the ski resort accessible from each room.

You will have the pleasure of enjoying the relaxation area, provided with a spacious massage room, a traditional sauna with rounded forms, marrying perfectly the rest of the room in which there is a large sofa where are placed cushions with local patterns and chamois. You can also enjoy this space to workout in this quiet environment.

On the top floor, you will enjoy a spacious living room very bright thanks to the huge windows inviting light to permeate the chalet Chamois. These huge windows with rectangular and triangular shapes are also found inside the chalet to allow light to cross through it. Imagine, at nightfall, at the corner of the large central fireplace, looking towards the slopes, while enjoying the reflection of the flames in the windows, a pure moment of pleasure and serenity. Your children will also have the pleasure of enjoying a playground located on the mezzanine of the chalet.

The simple, refined and typical decoration, with clear hues, brings us back to the essentials of mountain chalets, heart-shaped white embroidery on the curtains and cushions, the presence of wood in many forms throughout the chalet, as well as small touches reminiscent of the name of the chalet through lamps, frames, cushions but also in the heart of a very original headboard made of wood, where chamois are hidden.
