DESCRIPTION

This is spacious four-bedroom villa that is move in ready. The attention to detail throughout is outstanding and combined with stylish and contemporary furnishings this home stands out from the crowd. The choice of colors and finishes makes this property feel luxurious whilst still being a very practical and high performing family home.

A paved driveway flanked by landscaped gardens leads to an entrance courtyard. Here stone walls give a sense of tradition and place and which contrast well with the contemporary coral stone tiles and white exterior walls and vibrant mauve wooden shutters. Stairs lead to the main living area which has two structures which are interconnected by the large pool terrace.

The large of the two structures faces the pool and the views beyond and has the formal living room, an indoor grill and a fully equipped gourmet kitchen and a imposing dining room with guest half bath. The master bedroom and tiled ensuite is on the second floor accessed by beautiful wooden stairs. In addition to the master there is a home office on the upper level.

The second structure has two levels with a bedroom and bathroom on each. Hardwood headboards and build in wardrobes make these very comfortable and practical spaces. A fourth en suite bedroom, with queen-size bed sits below the main level and enjoys a private deck with sweeping ocean and garden views.

This home is a unique and hugely successful hybrid of contemporary design and living and traditional Caribbean features and presentation. It is a family home as well as great entertaining space. It has multiple living spaces all giving privacy so would also work well as a vacation rental. It enjoys gentle breezes and has panoramic views of the blue waters and islands beyond. This is one of Tortola's leading homes and we are delighted to have it in our portfolio.
