Luxury Villa Living

DESCRIPTION

This villa property consists of a main building with 2 air-conditioned en suite bedrooms, modern and fully equipped galley kitchen and a split level living and dining area. The bedrooms and living space open by way of glass folding doors onto the main pool deck, bringing in sea views and breezes.

The villa is Caribbean contemporary design, with minimalist lines and bursts of tropical hues against a white canvas. La Mer invites quiet contemplation on its large deck, with loungers for sun worshipping or stargazing, and both indoor and outdoor seating for dining. A special feature of the property is the stand-alone master suite, Coconut Cottage, set apart from the main house by a few feet and featuring king-size bed, en suite bath and equally wonderful sea views, with a bit more privacy.
