DESCRIPTION

Luxury Beachfront Villa in Malibu with Private Access to Carbon Beach

Carbon Beach is a striking architectural luxury villa in Malibu on California's iconic coastline. Designed by Olson Kundig, it combines industrial modern design with natural materials and curated art. As a result, it is ideal for guests seeking a high-end beachfront retreat with privacy and style.

The villa sits directly on Carbon Beach. Therefore, guests enjoy immediate access to one of Malibu's most exclusive stretches of sand.

Architectural Living with Coastal Design

Carbon Beach features bold modern architecture with concrete, steel, glass, and warm wood finishes.

The open-plan living spaces are designed around light, texture, and ocean views. In addition, curated artworks and natural materials soften the industrial aesthetic.

Therefore, the home delivers a balance of modern design and coastal comfort.

Five Bedrooms with Luxury Bathrooms

The villa offers five spacious bedrooms designed for comfort and privacy.

The layout includes:

- Five bedrooms accommodating up to 10 guests
- Upper-level suites with luxury en-suite bathrooms
- A primary suite with dual bathrooms and private terrace

Therefore, the property is ideal for families or refined group stays.

Each bedroom is designed to maximise privacy and relaxation.

Indoor Courtyard and Seamless Indoor-Outdoor Flow

A central cactus-filled courtyard forms the heart of the home.

It connects the main living areas and brings natural light into the interior. In addition, wraparound decks extend the living space outdoors.

Therefore, the villa offers seamless indoor-outdoor living throughout.

Private Access to Carbon Beach

Carbon Beach is located directly on the shoreline in Malibu.

Therefore, guests can walk straight onto the sand from the villa.

In addition, nearby attractions include Nobu Malibu, Malibu Farm, and coastal hiking trails with panoramic ocean views.

As a result, the location combines privacy, luxury, and lifestyle access.
