DESCRIPTION

The beautiful sandy beach, the crystal shallow and warm blue waters, the sand dunes covered with sand lilies that blossom in August, together with the adjacent hill covered with pine and cedar trees, create a unique environment.

In this secluded beach the sea turtle caretta lays its eggs every June and in mid August the little turtles get out of their nest and go into the sea, starting their big journey. The clarity of the sky, together with the absence of lights in the surrounding area provides the most amazing night sky. From October to March, the sun dives every afternoon in the sea in front of the beach house, creating the most amazing images in the horizon. Built practically on the sea, the guests have the opportunity to exit the villa and walk into the sea, enjoying the privacy of the beach, under the shades of the tamarisk trees planted on the sand in the edge of the property.

The spacious living-room with stunning view of the sea and the mountain is connected with the dining room and the kitchen. The kitchen is fully equipped with professional equipment in which one can easily cook for more than 30 people. Well-appointed outdoor living spaces at the villa create the atmosphere of a private resort overlooking the Libyan Sea. Four pergola-covered terraces with built-in sofas and dining tables are perfect for al-fresco lunches in the shade or dinner with stunning views of the Libyan Sea. Two of the terraces have a barbecue, one of them by the sea. You can find an outdoor kitchen at one of the terraces.

Villa Caretta consists of two main blocks, the main house, the guesthouse block and an extra guest room by the sea. It has 8 bedrooms and two family rooms with two bedrooms each, in total twelve bedrooms are at the guests disposal.
