Indoors

The house is decorated with modern, classic but elegant furniture, high-quality facilities and a careful decoration to the last detail offering an elegant finishing touch.

The house embodies a clever mix between contemporary architecture and traditional insular constructions ; indeed, the "Payasa" house is a 200 year-old traditional "casa payesa" but refurbished with state-of-the-art features.

Regarding the main suite, it is an individual construction of 300 squared meters located on the top of the hill, with one of the most beautiful views of the island. Just beside there is a separate massage room.

Outdoors

Villa Guptill is surrounded by well maintained and beautiful lush Mediterranean gardens where fruit trees and colorful bougainvilleas grow (3 hectares).

The stunning infinity pool, right in front of the house is the biggest on the island, and offers a breathtaking view over the sea and over Salinas and Formentera island.

The outdoors area are also composed of 4 living areas with amazing views : a Moroccan living room, a long table that sits up to 12 people under the grenade tree, a kichenette table for 6 people and a main round table that sits up
