DESCRIPTION

With a contemporary-zen aesthetic, the house is furnished in bold shades of white with wood items, with sliding glass doors that open to the terrace and the infinity-edge swimming pool and solarium. This seafront estate offers ninebedrooms decorated in elegant style,contemporary fabrics and bespoke furnishing.

The home design, approached with research in the historical context, results in a design style with teak wood on the terraces, floors in resin, and a Tunisian stone called Delos. The windows play an essential role with sunlight transparency in most house parts, granting a sunny feel to the interiors and a great design.

Elements of classic Italian residential architecture, such as an ornamental fireplace, are combined with contemporary touches, like the translucent staircase climbing up to the mezzanine living room. Modern yet very comfortable, this is an elegant retreat full of light with a welcoming vibe, blending traditional and contemporary Italian architecture. The property's structure is divided into several ambients named suites, all with individual accesses from the terrace, granting privacy as much as enjoying living together. Perfect for those who appreciate architecture, sea lovers and being immersed in the authentic Italian life, villa guests can enjoy the facilities of the gated park below, featuring a bar, a seawater swimming pool on the rocky shore, with a shared shuttle service for residents.
