DESCRIPTION

The property and its location radiate a historical prominence, enhanced by the strict-geometric lines and perfect shapes of the structured main house, pool house and 3 independent guesthouses, conceptualized by a renowned Greek architect. Unique pieces of art and sculptures by famous Greek artists elevate the aesthetic ambience of the indoor and outdoor living spaces complementing the handpicked designer furniture that meticulously fuse the modern with a local finesse.

And although this is doubtless a property of "descent", it is impressive how it has been thoroughly considered to offer opulent and extremely comfortable accommodation even to larger groups, due to the independence of the various volumes, as well as of the generous common areas and spacious en suite bedrooms. The combination of this truly rare central location with the exceptionally high standards of the property, make this a one of a kind selection, especially for a family with teenagers or a group of friends desiring to indulge in the vivid Mykonos lifestyle, while always having the option to comfortably withdraw on foot to their private abode.
