DESCRIPTION

Seaside Villa for Three Families

This seaside villa for three families offers a spacious and practical layout across two levels. Villa Raccoon works especially well for large groups, family holidays, or three families travelling together. It includes seven bedrooms, each with an en-suite or private bathroom, along with generous indoor and outdoor living areas.

The main floor has a wide, partly covered terrace that wraps around two sides of the house. From here, guests can enjoy views out to sea and spend relaxed moments outdoors. In addition, the villa's design makes it easy to move between the interiors, terraces, garden, and swimming pool.

This seaside villa for three families also offers excellent entertainment space. The extensive ground floor includes an activity room with a pool table, sofas, TV, DVDs, and plenty of room for games. As a result, guests of all ages can enjoy time together indoors as well as outside.

First Floor Living Spaces

The first floor includes a sitting room that opens directly onto the terrace. This creates a comfortable place to relax while enjoying the sea-facing outdoor space.

The kitchen and dining room also open to the terrace. Therefore, guests can prepare meals indoors and dine outside with ease.

The wide terrace wraps around two sides of the villa. Moreover, its partly covered design gives guests both shade and open-air comfort.

Master Bedroom with Terrace Access

The first floor includes the master double bedroom. It has a separate sitting area and an en-suite bathroom with a walk-in shower.

This bedroom also opens onto the terrace. As a result, guests can enjoy fresh air and sea views from their private space.

The extra sitting area adds comfort and makes the master bedroom feel more spacious.

Ground Floor Activity Room

The ground floor includes a sitting and TV room with a pool table. This room works well for games, film nights, and relaxed afternoons.

Sofas create a comfortable place to watch TV or DVDs. In addition, the many games provided

give guests more ways to enjoy time together.

This activity room makes Villa Raccoon a strong choice for families with children and mixed-age groups.

Ground Floor Bedrooms

The ground floor includes a twin bedroom that can be made up as a double. It opens onto the terrace.

There is also a double bedroom with en-suite shower room and access to the ground floor terrace. Another twin bedroom can also be made up as a double and has an en-suite shower room plus a private terrace.

In addition, this level includes a bathroom, a shower room, and a utility room. Therefore, the ground floor offers plenty of convenience for larger groups.

More Bedrooms, Garden and Pool Access

The ground floor also includes a double bedroom with en-suite bathroom and terrace access. Another double bedroom can be made up as a twin and has an en-suite shower room plus terrace access.

A bunk bedroom with four full-size single beds also opens to the terrace. This room works especially well for children or younger guests.

All ground floor rooms have access to a shady terrace, the garden, and the swimming pool. Moreover, guests can rent a boat to explore the coastline, adding extra fun to a seaside holiday.

With its seven bedrooms, private bathrooms, activity room, pool table, wraparound terrace, garden, swimming pool, and sea views, Villa Raccoon offers a relaxed and spacious stay for families and groups.
