DESCRIPTION

Beachfront Villa Estate with Two Villas

This beachfront villa estate with two villas offers a luxurious private escape for up to 14 guests. Villa Wallabie consists of two independent luxury villas with seven bedrooms in total. As a result, it works beautifully for family reunions, groups of friends, or guests seeking a high-end Greek island holiday.

The estate sits directly on the beach on a hill, offering unobstructed views of the Ionian Sea. Its setting feels peaceful and secluded, yet it remains within reach of the next small town. This beachfront villa estate with two villas combines contemporary architecture, traditional style, modern technology, landscaped gardens, infinity pool living, cinema space, office areas, and extensive outdoor lounges.

The owners designed the property with both beauty and function in mind. Therefore, guests can enjoy a modern, practical, and stylish estate that feels private, comfortable, and easy to use.

Smart Living and Sea Views

Villa Wallabie takes smart living to the next level. Guests can control interior temperature, indoor and outdoor lighting, the alarm system, and the music system from a tablet.

This makes daily comfort simple, even while relaxing on a sunbed by the pool. Moreover, the technology supports a smooth and relaxed stay.

The villa’s modern design still keeps a connection to traditional style. As a result, the estate feels both elegant and welcoming.

First Villa Layout

One villa is arranged across two levels. On the ground floor, guests will find a spacious living area, kitchenette, cinema room, office, and two bedrooms.

The first floor also serves as the entrance and pool level. It includes a modern living area with fireplace, an open-plan fully equipped kitchen, dining area, and two bedrooms.

This level opens towards the sea and outdoor spaces. Therefore, it is ideal for warm summer evenings, shared meals, and relaxed drinks with a view.

Luxury Villa Living

Second Villa Layout

The second villa is also built across two levels. On the ground level, it includes a spacious living area, fully equipped kitchen, and dining area.

The first level includes three bedrooms. This creates a comfortable and practical layout for guests who want privacy within the larger estate.

Together, the two villas provide seven bedrooms for up to 14 guests. In addition, the independent layout makes the estate suitable for multi-generational groups or several families travelling together.

Gardens, Pool and Outdoor Lounges

The estate includes extensive landscaped grounds and a verdant garden. These outdoor spaces create a calm and serene atmosphere throughout the property.

Guests can relax in the blooming garden, enjoy the Mediterranean sun by the infinity pool, or admire the sea views from several outdoor lounge areas. Meanwhile, the beachfront hillside position keeps the Ionian Sea visible throughout the stay.

With its two independent villas, seven bedrooms, beachfront location, infinity pool, smart home technology, cinema room, offices, landscaped garden, outdoor lounges, and panoramic sea views, Villa Wallabie offers an exceptional luxury estate in Greece.
