DESCRIPTION

The 5000 features four spacious en-suite cabins, each with zoned air conditioning for personalised on-board climate control. The head charterers may wish to choose the larger "master" suite cabin complete with additional storage and sitting area.

An expansive saloon features modern, light wood finishes and wraparound panoramic windows, along with a skylight for even more natural lighting. A fully appointed forward-facing galley will delight the chef among your crew with a double-drawer refrigerator/freezer, gas range/oven, microwave, blender and toaster. The saloon also hosts a dining area with wraparound cushioned seating, including a drop-down table that converts to an additional double berth. From the saloon, a door provides easy access to the trampoline and forward cockpit seating area.

The saloon also blends seamlessly into the aft cockpit with the help of stacking sliding glass doors. This area serves well as an extended galley, featuring electric grill, outdoor refrigerator, and dining table with cushioned, wraparound seating for enjoying waterside meals as a group. The Moorings 5000 innovations take outdoor living to new heights with an elevated lounge area complete with wraparound seating, sunbed and shade awning - perfect for taking in 360-degree views.

Other on-board details for a best-in-class charter experience include a water maker, flat-screen TV/DVD, Bluetooth connectivity, complimentary Wi-Fi, interior indirect floor and ceiling lighting, plus double USB ports in cabins and saloon. And come dusk, the blue underwater lights offer an added glowing ambiance.

Sailors will appreciate the raised helm station offering excellent visibility, full Raymarine navigation electronics, including rear-view camera, and electric mainsheet winch. Rounding out this next-generation yacht are twin 57 hp Yanmar diesel engines, generator, solar panels, electric flush heads, and inverter for powering electronic devices.
