DESCRIPTION

The home sits on an oceanfront lot with a vacant lot to the east and the North Side cemetery to the west. The cemetery is visible from the driveway. Tall foliage and a large buffer area block its view from other parts of the home.

Reasonably priced for larger families, Envision is a two-level home featuring an open floor plan with a large family room on the lower level. Furnished with a comfortable sectional sofa and large television, guests will find plenty of space to spread out, relax, and enjoy the sweeping ocean views. Exposed beams and vaulted ceilings accentuate the views, filling the home with natural light.

A small den sits off the family room furnished with a desk and sleeper sofa. It's a nice spot to curl up with a book for some quiet time or a daytime nap. Work-from-home professionals can retreat to the den to connect remotely with the office while vacationing in style.

The new saltwater pool with spa overlooks a large sandy beachfront, leading to excellent snorkeling just steps from the back door. The beach offers plenty of sunning space with no immediate neighbors to the west and North Side's cemetery beach to the east. The beach is lined with palm trees and equipped with a beach cabana for shade plus seaside hammocks.

A large oceanfront sun porch on the edge of the pool deck is the perfect place to dine or relax after a day of sun and surf. The dining table is usually set up with seating for 6-8 guests.

The home's five bedrooms are spread across the upper and lower levels. The primary suite plus two bedrooms sit on the lower level with the remaining 2 bedrooms upstairs. The upper-level bedrooms are ideal for kids and teens due to their low ceilings.
