Luxury Villa Living

DESCRIPTION

A stunning designer villa in the hills above Villefranche with luxury accommodation for up to 10 people and one of the region's best panoramic views across the French Riviera out to sea.

The south-west facing property was originally designed and built into the rock by a renowned architect and has been completely renovated and furnished to the highest standards in 2019, the result is a unique place where the sun, sea views, and idyllic natural surroundings truly flow together.

Guests can access the private, fully air-conditioned property via glass elevator, which first stops on the infinity pool level including several beautiful terraces, plenty of sun loungers, and a jacuzzi. The next stop leads to a walkway through the rocks accessing the natural light-flooded living areas and bedrooms, all distributed across 3 levels and profiting from breath-taking sea views.

The upper level consists of open dining/kitchen with access to a dining terrace. Steps lead down to a well equipped living area with several comfortable sofas and seating areas, fireplace, and large ceiling windows combining gardens and views with the interiors. There is access to another terrace with outside furnishings.

Three of the five en suite bedrooms are located on the middle level, all equipped with 180cm double beds and large windows opening up to the fantastic views, one bedroom includes an office space and a small terrace, another suite includes an attached, well equipped office with sliding door and sofa corner.

The two remaining en suite bedrooms are located on the lower ground, a regular sized bedroom with 180cm double bed and the fifth bedroom with large windows and window ceiling, equipped with a 280cm wide double bed.

The villa is air conditioned throughout, equipped with floor heating, iPod docking station, and music system. We do not recommend this villa for families with young children.
