DESCRIPTION

Sea View Villa with Guest House

This sea view villa with guest house offers a comfortable stay with private outdoor spaces, flexible bedrooms, and relaxing sea views. Villa Python includes a main villa, an independent guest house, a swimming pool, gym, BBQ area, and outdoor dining space. As a result, it works well for families, couples, or groups who want privacy and easy holiday living.

The villa is arranged across three levels, with the main social spaces placed on the pool level. Guests can enjoy direct terrace access, sea views, and a smooth connection between the living room, kitchen, dining area, and pool. This sea view villa with guest house also offers private parking, sunbeds, umbrellas, a hammock, and a separate studio for extra independence.

Villa Python gives guests a relaxed base for a peaceful stay. In addition, the mix of en-suite bedrooms, terrace access, and outdoor seating areas makes the property practical and inviting.

Pool Level Living Spaces

The pool level includes the villa entrance, living room, dining area, and open-plan fully equipped kitchen. The living room has a TV, A/C, fireplace, terrace access, and sea view.

This layout keeps the main indoor spaces bright and sociable. Moreover, the open-plan kitchen makes cooking and dining feel simple during the stay.

A guest WC is also located on this level. Therefore, guests can enjoy extra convenience close to the pool and living areas.

Pool Level Bedrooms

The pool level includes one double room with an en-suite bathroom and shower. This bedroom has twin joinable beds, A/C, pool and sea views, and terrace access.

A second double room is also located on this level. It includes a king-size bed, TV, A/C, terrace access, and pool and sea views.

There is also a separate bathroom with shower. As a result, the pool level offers useful comfort for guests who want easy access to the terrace and swimming pool.
