DESCRIPTION

The chalet Licorne was designed and built in 2010 by Jeanne Valérie Thura, a renowned architect in Courchevel who is already the author of developing several chalets and prestigious homes in the resort. The interior decoration of the Licorne chalet is a subtle combination of noble materials such as wood, leather and fur.

While the setting is sleek and contemporary in shades of grey, white and light natural wood, small touches of bright colors come and blend beautifully like the blood orange seats around the dining table and the kitchen bar stools, also the rugs and cushions of the living room sofa from which you can watch your children play in the swimming pool below.

Enjoy spacious areas and the many facilities offered by the luxury catered chalet Licorne. This ski in ski out chalet welcomes ten adults and four children in its six luxurious rooms. On the top floor of the chalet there are two gorgeous master bedrooms with en-suite bathrooms, dressing rooms, private balconies and an ethanol fireplace in one of them which will delight its occupants.

Relaxation is paramount in this ultimate luxury chalet: on the main level, a black wooden table football sits as the throne in the living room. A little further down, is a level entirely dedicated to well being with a beautiful pool and its starry ceiling, it is also part of our selection chalet with jacuzzi, fitness room and steam room welcoming two chairs fully integrated into the structure, an original and modern unique steam room in Courchevel. The hangout for the children will be at the lower level of the chalet in the games room with television and games, this space totally prohibits parents.
