DESCRIPTION

Luxury Villa in the Dominican Republic with Ocean Views

Casa Kimball is a luxury oceanfront villa in the Dominican Republic. It sits near Cabrera on the north coast. The villa overlooks the Atlantic Ocean. As a result, it offers wide 180-degree sea views. It also delivers complete privacy in a natural setting.

Private Clifftop Estate with Infinity Pool

The villa sits on a private clifftop estate. It spans approximately three acres of land. In addition, tropical trees surround the property. These include coconut palms and almond trees.

At the centre, a large infinity pool faces the ocean. It creates a direct visual link with the horizon. Furthermore, the pool area includes sun terraces and shaded lounges. Guests can relax there throughout the day.

Modern Design with Indoor-Outdoor Living

Casa Kimball uses a modern architectural style. It focuses on light, space, and airflow. Therefore, the villa connects indoor and outdoor living.

Large glass walls open toward the ocean. As a result, every main room has a view. In addition, natural materials shape the interior design. These include stone, wood, and neutral finishes.

Eight Luxury Bedrooms with Ocean Views

The villa has eight en-suite bedrooms. Each room offers privacy and comfort. Several bedrooms open onto private terraces. Therefore, guests enjoy direct ocean views from their suites.

This layout works well for large groups. It also allows both shared and private spaces.
