DESCRIPTION

Today, Frankfort is a paradigm of 21st Century laid-back elegance. A brilliant half million dollar renovation introduced Italian Travertine floors, chic and comfortable sitting areas in crisp white fabrics, and stunning Euro-style modern bedrooms with all new en-suite bathrooms and glass-wall showers. All furniture and fabrics were imported from the UK and Europe, many having been designed exclusively for Frankfort by Caroline Shasha Interiors of London. The original two-foot thick rough stone walls and gun slots are still in place, reminders of Frankfort's days as a British fort defending against Spanish invaders and pirates. Two old cannons were dug up from the beach and now hold reign squarely on the lawn.

Floor-to-ceiling bookcases divide the ground floor into two sections: one, an elegant inside dining space and dimly-lit bar ~ the other, a comfy living room, television, music and games area. The 80' Travertine and old stone verandah is furnished from the stylish Dedon Collection from Germany. This covered porch is the gathering area for drinks, *hors d'oeuvres* and *al fresco* dining as the sun sets over Frankfort's beach.

The beach is soft, the swimming water is wonderful. The gardener will place comfortable beach chaises in the sun or under thatch umbrellas. The staff may surprise you with a torchlight beach feast one night. 300 yards offshore is a live reef; snorkels and masks are provided. On request, the butler will hire jet skis, hobie cats, sea bikes, sailfish, a sunset booze cruise or a deep-sea fishing boat. Most water sports can be paid by credit card at the nearby Prospect Plantation Office. Nearby attractions include tubing on the White River, shopping in Island Village, swimming with dolphins, walking up famous Dunn's River Falls, and touring Prospect Plantation (the original Great House up the mountain).

Accommodations in the Main House

Each bedroom in the main house has a flat screen television and opens through double doors to the 80' balcony and ocean view. Each bathroom has chic Euro-design Grohe fixtures, double-basin vanity and glass-wall shower. While all bedrooms have blackout curtains and remote-control quiet air conditioning, you may opt to sleep with doors open to the sound of waves lapping on the beach.

Accommodations in the Schoolhouse

A cut stone path leads 60 feet across the lawn to the old Schoolhouse, built in 1953 for the Mitchells' only daughter, Mary Jean. While Sir Harold and Prime Minister Churchill were meeting in the main house, little Mary Jean's care and education were looked after here by
