DESCRIPTION

Like coming out of one of Picasso's masterpieces, the main entrance takes you through a long corridor next to a crystal-clear pond and rounded white columns while discovering the cubic facade that takes you to the main foyer of this splendid two-stories villa. The marble tiles on the floor and the coralina stones on the wall will guide you to the living room through a high ceiling with outstanding wooden beams and surrounded by evergreen palms and Caribbean vegetation. There, the breathtaking view of the blue-emerald ocean is perfectly balanced with the rattan chairs, couches and sitting places composing a smooth atmosphere. Stepping outside welcomes everyone to plunge into the large pool with a hot tub and to have a clean out-view to the endless Caribbean Sea. The diverse exterior living areas offer multiple options to enjoy the comfortable sea breeze.

Next to the living room is the dining room with exquisite decor and a large table with enough space for 22 seated guests, The eyes are naturally led to the mesmerizing outdoor views and light is provided by a suspended rectangular and modern chandelier.

For exercising and shaping bodies the villa has a full gym with Technogym Equipment, dumbbells and more. After the training session, the massage room offers all you need to relax and recover strength. For those who are not big sports fans, the property has a unique 12-seat cinema to watch your favorite movie while having popcorns or the media room on the second floor with 4K HD TV. For the ones who like to bet, on the guest house, there is a bar with 4 TV's and a poker table to try out luck and strategy.
